examining medical officers. The Insurance Committee have proposed to give him a monthly allowance of Rs. Rs.200 and their calculation is based upon payment of a fee even for first examination for official insurance for which under existing rules, even the examining -- medical officers get no remuneration. The official -- insurance is worked on very economical principles and the underlying idea is that as much benefit as possible should accrue to the insured themselves. If it is proposed to pay the Senior Surgeon, it will be difficult to refuse fees to the examining medical officers. If both these officers are paid, members of the Insurance Committee, the Secretary of the Committee and the President would be treated differently from officers of the medical department and this would not be quite -- fair. The addition of a monthly allowance of Rs.200 t another highly paid officer is an arrangement which is likely to be criticised by the public and the non-official members of the Finance Committee who are objecting to the grant of allowances in addition to pay. The previous Senior Surgeons have been attending to insurance work under the existing rules and I am not quite sure that it is necessary to sanction the allowance recommended by the Insurance Committee.

There is however one respect in which the existing arrangement may be altered; for further examination for detailed

detailed medical certificates and for optional insurance on the official side, the examining medical officers are paid a fee while the Senior Surgeon is not paid anything. I would propose that for these proposals also the Senior Surgeon may be paid one-half the fee paid to the examining medical officers following the rule now in force in regard to public insurance proposals.

Proceedings of the Government of His Highness the Maharaja of Mysore.

R e a d :- Letter No. 1215 dated 5th August 1921 from the Secretary, Mysore State Life Insurance Committee forwarding for orders of Government the under mentioned resolution passed at the meeting of the Committee held on the 6th June 1921:

> " Resolved that as the work of the Senior Surgeon on the Committee as far as scrutiny of proposals goes, is clearly distinguishable and the work onerous and taking into consideration the average number of cases he has to pass both in the Official and Public Branches, the Committee are of opinion that the Senior Surgeon may be paid out of the Insurance Funds a consolidated monthly allowance of Rs. 200 for work in connection with both the Branches and the same apportioned between the two Branches in such manner as may be found equitable by the Secretary."

O R D E R No. F2354-6 / 97-26-4-2

Dated 9th October 1921.

The proposal of the Insurance Committee to grant a monthly consolidated allowance of Rs. 200 to the Senior Surgeon does not commend itself to Government. They are however pleased to direct that, for further examination, for detailed medical certificates and for optional insurance on the official side for which the examining medical officers get remuneration, the Senior Surgeon may be paid one-half the fee paid to the former following the rule in force in regard to public Insurance proposals.
